12 Days of Christmas Squishies

Printable calendar kit | LETTER

1. Print every page at 100% / Actual size. Do not choose Fit to page.
2. Check the scale below with a ruler before cutting.
3. Cut each numbered front and matching back on the solid square lines.
4. Put matching pieces together, pictures facing out. Tape around three sides.
5. Add a LITTLE soft filling, then tape the last side closed. Keep edges flat.
6. Cut each pocket net on the solid outside lines. Fold on dashed lines.
7. Fold the lower panel behind the upper panel; glue side tabs behind it.
8. Leave the top open. Once dry, slide the matching toy inside each pocket.
9. Attach pockets to a board or wall with removable tape. Open one each day.

Print check: this line must measure exactly 50 mm.

You will need

Scissors, clear tape, glue or double-sided tape, and a small amount of soft filling.

Adult help recommended when cutting. Do not overfill: pockets are flat paper sleeves.
